# Pinchable Page Scroller V 1.0

1. **Overview**
   ; UI Page View Scroller.
   ; Magnetic movement during dragging.
   ; Pinchable.
   ; Pinch position-oriented zoom in and out.

2. **Setup**
   A) Create the Canvas object for UI and the PinchablePageScroller.
   B) Place the PPScroller prefab under the Canvas.

   C-1) Add Page objects for scrolling under the Contents object.

C-2) And then, set the objects in the list.

D) You can also add scroll target views via the AddTargetView() function dynamically.

(Check the SampleScene02 as a reference.)
